

Presentación por la Sra. Annaleen Bobb, Gerente Regional de la Asociación de Transporte Aéreo Internacional (IATA), sobre el Programa de Trabajo de la IATA.

ANNALEEN BOBB
AREA MANAGER, CARIBBEAN

Our mission is to represent, lead and serve the airline industry. 

Special Meeting for Transport
October 15th, 2016, Port of Spain, Trinidad.

- 
- A circular view from an airplane window showing a blue sky with white clouds.
- AN OVERVIEW OF IATA
 - ECONOMIC OUTLOOK
 - REGIONAL CHALLENGES
 - IMPORTANCE OF PARTNERSHIPS
- 
- A vertical list of five checkboxes, with the first four marked with checkmarks. A pen is shown writing the checkmarks.

OVERVIEW

- GLOBAL TRADE ASSOCIATION FOR THE WORLD'S AIRLINES
- 265 PASSENGER AND CARGO CARRIERS
- 84% OF GLOBAL AIR TRAFFIC
- 63 OFFICES IN 60 COUNTRIES
 - REGIONAL HUB IN MIA
 - 10 COUNTRY OFFICES ACROSS THE AMERICAS
- 1,500 EMPLOYEES

Thank you for contributing to our national
treasuries. Have a nice day.

- EACH \$1 OF TICKET TAX COULD LEAD TO:
 - OVER 40,000 FEWER FOREIGN PASSENGERS
 - \$20M OF REDUCED TOURIST EXPENDITURE
 - 1,200 FEWER JOBS

➤ Increase in departure tax by 150% from US\$14 to US\$35.

➤ Aviation is burdened with excessive taxes to fund both State functions and generate public revenues.

➤ Taxes and charges on international air transport should only be levied in compliance with ICAO's taxation policies.

- Tax removal in the Caribbean may generate a total discounted benefit of USD \$8 billion up to 2035.
- Tax removal can potentially deliver a GDP benefit of USD \$3.2 billion.
- Employment growth of 51,000 jobs.
- Removal of aviation taxes in the Caribbean is estimated to result in a total consumer benefit of \$ 426 million.

REGULATORY ENVIRONMENT

- Entered in to force in 2003
- It governs airline liability for passengers, baggage and cargo on international flights in cases of:
 - death, injury or delay to passengers
 - delay, loss or damage to baggage
 - delay, loss or damage to cargo
- IATA and its member airlines continue to support ICAO in promoting MC99 as the single, global Convention on airline liability

- Passenger A is on the outbound sector of a round trip ticket booked NAS-YYZ-NAS. In the case of a claim, the Warsaw Convention would apply because the origin and destination are the same, NAS, and the Bahamas has not ratified MC99
- Passenger B is returning to YYZ as part of a round trip ticket booked YYZ-NAS-YYZ. In the case of a claim the Montreal Convention 1999 would apply because the origin and destination are the same, YYZ and Canada is a party to MC99
- Passenger C is on a one way ticket NAS-YYZ. In the case of a claim the applicable treaty that both the Bahamas and Canada are both parties to which is the Warsaw Convention and amended by the Hague Protocol 1955

	Warsaw Convention (1929)	Hague Protocol (1955)	Additional Protocol 2 + Montreal Protocol 4	Montreal Convention 1999*
Death or injury	USD 12,000	USD 24,000	USD 25,000	USD 160,000 (first <i>threshold</i> , higher sums recoverable)
Baggage	USD 20 per kg	USD 20 per kg	USD 25 per kg	USD 1,700 (new global limit, approx. USD 74 per kg on 23kg bag)
Cargo	USD 20 per kg	USD 20 per kg	USD 25 per kg	USD 28 per kg
Provisions for electronic documentation?	No	No	Yes (with MP4 only)	Yes

NB. *Treaties don't express limits in USD. These have been calculated using [xe.com](https://www.xe.com) for comparison purposes

- Universal ratification of MC99 ensures that citizens are covered by a fair and modern liability regime wherever they are flying in the world.
- MC99 supports trade facilitation by enabling the use of electronic documents in the air cargo supply chain:
 - This means faster, more secure shipments for exporters and businesses
 - Important for many high-value or time sensitive products that rely on air cargo connectivity.

MONTREAL PROTOCOL 14 - UNRULY PASSENGERS

Unruly Passengers have become a significant issue

2007–2015

49,084

reported cases of
unruly incidents

1 incident every
1,613 flights

2015

10,854

reported cases of
unruly incidents

1 incident every
1,205 flights

11%

of reports indicated
physical aggression

It is one
of the top 3
safety issues that
concern cabin crew

53% of IATA members surveyed considered that unruly passengers have increased in frequency in past 5 years

40% of airlines had diverted a flight in past 12 months due to an unruly passenger.
